PROSPECTUS OF A new Story on an old Subject.

THE AUTHOR, in presenting the following work to the public can not but feel that he has an arducus task to perform in catering to the public tests, and has somewhat digressed from the established rules, and customs of an thors by taking up a subject which, if carefully persued, and the advice herein contained followed, the ambition of the author will be gratified to its utmost extent, and the object of this work will have been attained, viz; to put money in my pocket and to give to the execution in discussions in my pocket and to give to the execution and inculgant render a literary trent through the agency of the digestive organs. It might perhaps be necessary to state, that the most of the manuscripts from which this tale was founded was taken from an old dress pocket found in a find hand Clothing Store a few weeks since in New York by the anthor, and originally owned by the indefatigable has Tooners, at once conveying to the mind of the reader that a bargare may be expected. Hoping the kind and indulgent public will excuse any blunders and look with a parconaised even poss my humble efforts to procure for them 1st. a closis of Imperial and Black Tess, the finest ever brought to this market, and put up in such a shape that every one can see it for themselves. Still keeping in the material and Black Tess, the finest ever brought to this market, and put up in such a shape that every one can see it for themselves. Still keeping in the first of the such as the form of Mocha, Old Gov Java and Baltimore Rio Coffees. I must not digress as fer front my subject as to forget that I also laid in a bountiful supply of Baker's Broma and French Chocolate, an excellent morning drink for my nervous reader in these troubletts rollical times. In compiliting the forthcorning an excellent morning drink for my nervous reader in these troublets political times. In compiling the forthcoming work I shall "dilete" pretty extensively on the merits of "Fe F.p." The following extract taken from the "Bung" letown Fuszett will convey some idea of the attention paid

to that valuable insect:

"We take great pleasure in announcing that a celebrated author from one of the Westero States is now in our city collecting specimens for a forthcoming work, upon which he is engaged. We notice a large invoice of the which he is engaged. We notice a large invoice of the gennine "Hoideack Champayne." Together with a full assortment of choice Wines and Liquara, among which the justily celebrated Tchernay Brandy, all of which the iberal author intends to treat his many renders, to or as many of them who have the magnanity to pay for it. We wish the author success to his new work, which is to be called "I FF"

As the author feels incompetent to proceed in that Flour'y style so common with writers of the present day, he begs to say that in its proper place in the work he will serve up 300 bags of that indespensable rricle in 25, 50 and 100 ib hags, thereby leaving it at the option of the readers to Flour to their own taste. For "feer" (and what author is without it) that this stupendous enterprise might and in "mode" the author has carefully laid in a large and choice collection of "Squre," which will give each reader an opportunity of sustaining the author by giving him a "swot," and furthermore, in order to verying the him a "sw?", and furthermore, in order to verying the old?rovers of where there is so much smoke there must be some fire, the compiler of these valuable manuscripts has added a heavy stock of "Matches". As another digression, for which I beg purdon of all authors who "space" their concoctions with brilliant showers of wit and humor, I have employed a substitute, which I cannot but behave I here employed a nahetitute, which I cannot but believe is of a more substantial nature, viz: a choice assortment of Nutmers, Ginger, Classamon, Cloves, French, English and Kontschy Mantards, Allepies, Pepper, ground and unground. Usespe of different varieties, Woroestershire John Bull and Harsey Sauces, and in the place of sweetning the many beautiful passages, which will occur from time to time with morahight rays, suphyr breezes, and the nector sign of from the pure lips of annocement. I have emperate sign of the sector of the contract of the sector of ployed the more powerful argament of Posedered, Crushed, Losf, Corrifed and Granulated, and different degrees of Errors Sugare combined with the more liquid streams of Robe led, Sogar House and Plantation Melasses, and the bright und fluwing Gelden Surap. How beautiful, indugent reader, does Pope or Guidver (the author does not dictinally remember) express himself in the following

improve each shining hour And gather Honey — I here beg leave to say that in order more fully to carry out the objects of this muse work, I have provided myself with a large stock of honey the author above speaks of, which will be used in its restaral state or "steaded" to suit the tasts of the reader, as "straining" is a too common error among au-thors, which too very otten piaces them in a position where they are compelled to make a "rates." I have in where they are compared to have a compared to avoid that nopleasant predicament, taken the precaution to provide a large supply of Preston & Merrill's Peast Pombers, whose raising qualities my numerous readers have probably formed some opinion. As a bright and shining "light" as I intend this work to se, I shall antistitute the agency of Star, Adamantine, perm and Tollow Cividles, and to "cleane" the mind a all impurities shall resort to Gestile, Clein and Common Sperm and Tailor Bur Song, which together with Wash Boards, Tubs, Buckets, Arrows, and Sarab Brushes, I have procured an abundant supply. As it is a time honored custom with compilers of great works to first "polish the understanding" of their readers, I take pleasure in stating that I shall for ids, urpose hong into requisition a full supply of "Black-ing" and "Slow Brunks," and in order that the reader may more fully appreciate the sweet and choice selections above mentioned, I shall preface each chapter with a full

iescription of different varieties of Pickies, Gross & Riackwell's Chou Chee and Piccalli, Gerkin's prepared Horse Radich and pure Caler Vinegar, for men wise man once mid, every sweet his its soir, or something to that effect. As this work will, undoubtedly, fall in the hands of a great many highly educated persons, who will look for the more dignified or "dof" portions of the work, I shall introduce a heavy stock of Colgates & Fixed Pearl shall introduce a heavy stock of Congutes & Force Francis, whose stiffening qualities none can say coght against, and another class of readers who are too easily guiled by a large class of "Meal'y" mouthed authors, and are never willing to acknowledge the "Corn," shalt be amply supplied with extracts from a large Bin of Corn Meal, Rive Meal, or embelod Four. As the forthcoming work will be attended with anormous expense, owing to the sodden advance of Taxes (the cause of which has never been fally ascertained) the nullior is compelled to forego the publication until a certain amount of subscribers are obtained (the amount of subscribers limited to 20,000) but appelment of the promised literary hash can be seen at his Studio, No. 30 Market street, every day, and full instructions given to those who will purchase the ingredients and are desirous of embarking upon that "Tempest tosed

ocon," an author's life.

I lorged to mention that all such old fogy authors as soche and "Barn" will be guored, and "clear Sides, Country and Soper cural Bans, Shoulders, &c., will be tustituted. "I will also state" that "that" Pony will still Let in the especity of assistant editor, the "shortness of his ears" not being sufficient to pronounce him inelligible sept26—Im Yours Truly, D. G. It almost invariably relieves and not unfrequently cures

Ask the Agent in your nearest town, what has been his experience of the effects of this medicine. If he has been selling it for any length of time he will tell you it is the best medicine exisms. Below we give a few extracts from letters we have recoived leastly regarding the virtues of this medicine.

Dr. S. S. Oslim, of Knoxville, Ga., says.—I have been using your Liverwort and Tar very extensively in my practice for three years past, and, it is with pleasure I state my belief in its supertority over all other articles with which I am acquainted, for which it is recommended.

Messers, Firsperald & Breamers, writing from Waynesville, N. C., says:—The Liverwort and Tar is becoming daily more popular in this country, and we think justly so. All who have tried it speak in commendable terms of it, and any its very beseffein in alleviating the complaints of which it is recommended.

Our Agent in Pickons District, S. C., Mr. S. R. McFall, assures us that he uses inwising the complaints of which it is recommended.

Our Agent in Pickons District, S. C., Mr. S. R. merall, assures on that he uses inwising the complaints of which it is near ownended to his neighbora." He gives an instance in negro woman is his vicinity, who had been suffering with disease of the Lungs for years, attended with sever cough, who was relieved by the Liverwort and Tar.

Such are the good reports we hear of this Medicine from all parts of the South. Por a report of the surprising cores it has performed in the Western and Northern and hastorn States, we would invite the suffering patient to read the pamplete which accompanies each bottle. To all weasy, have one, have hope!
